Leather single reins

Two black, teardrop-shaped collars are shown lying side-by-side on a light-colored wooden surface. The collars are made of a smooth, dark material, possibly leather or a synthetic equivalent, and have a rounded, teardrop shape. They are positioned with their top ends towards the top of the frame. The background is a plain, light-colored wall.

**Hames for Single Horse
Needs a top strap**

The image shows four pairs of metal hames, which are used in harnessing for pulling loads. Each pair consists of two curved metal pieces joined at the top and bottom. The top part has several metal rings for attaching harness straps. The bottom part has a hook and a ring. Two pairs have black leather tugs attached to the bottom hook, while the other two do not. The hames are laid out on a light-colored wooden surface.

Hames for Pairs with removable tugs

A pair of black leather saddles is laid out on a light-colored wooden table. The saddles are positioned side-by-side, with their stirrups and girths visible. The leather appears to be of high quality and is well-maintained. The text "Top quality pairs saddles French leather" is overlaid on the image in white, bold font.
